

Paek Doo-hyun Profile

I have been striving to contribute to human culture by revealing the value of Hangŭl cultural heritage and making it widely known nationally and internationally. I have researched the Hunminjŏngŭm, the Korean language in ancient texts, various Hangŭl literary materials, the history of Korean people's language life, the Sŏkdok Gugyŏl, and more. Emphasizing the value of Hangŭl manuscripts, I have devoted myself to the study of Hangŭl letters, Hangŭl cookbooks, and Hangŭl manuscripts.

I will briefly introduce some of my books. I recently published *훈민정음의 문화중층론: 관점의 전환과 새로운 해석* (Hunminjŏngŭmŭi munhwajungch'ŭngnon: kwanjŏmŭi chŏnhwan'gwa saeroun haesŏk) (2023, Kyungpook National University Press), in which the Hunminjŏngŭm is studied from a new perspective. I have been interested in and researched Korean food cookbooks written by Koreans during the Chosŏn Dynasty. I published three books of 17th-century Korean cookbooks translated into modern Korean and commentaries on them, including *음식디미방 주해* (Ŭmsikdimibang chuhae) (2006), *주방문·정일당잡지 주해* (Chubangmun·Chŏngildangjapchi chuhae) (2013), and *주찬방 주해* (Chuch'anbang chuhae) (2020). To share my research with the public, I have published books such as *한글편지로 본 조선시대 선비의 삶* (Han'gŭlp'yŏnjiro pon Chosŏnsidae sŏnbiŭi sam), *한글편지에 담긴 사대부가 부부의 삶* (Han'gŭlp'yŏnjie tamgin sadaebuga pubuŭi Sam), *한국어는 나의 힘* (Han'gugŏnŭn naŭi him) (co-authored), and *한국어에 힘 더하기* (Han'gugŏe him tŏhagi). Together with my students, I have also published a collection of studies named *공부가 쌓여온 마당* (Kongbuga ssayŏon madang). Currently, I am writing *한국 어문생활의 역사* (Han'guk ŏmunsaenghwarŭi yŏksa). I completed my undergraduate and graduate studies at Kyungpook National University and received my Doctorate Degree in Literature in February 1990. I served as President of the Hunmin Jeongeum Society and President of the Korean Language History Society.
